[illegible]

A visual equation using 10-frames. The first 10-frame has 5 black dots in the first column. This is followed by a plus sign, then a second 10-frame with 2 black dots in the first column. This is followed by an equals sign, and finally a blank 10-frame.

A visual equation showing the addition of two groups of 10 dots. The first group is a 5x2 grid of dots. This is followed by a plus sign. The second group is another 5x2 grid of dots. This is followed by an equals sign. The final result is a 10x2 grid of dots, representing the sum of 20 dots.

A visual equation using ten-frames to represent the addition of two fives. The first ten-frame is filled with 10 dots (5 in each column). This is followed by a plus sign, then another ten-frame filled with 10 dots. This is followed by an equals sign, and finally a third ten-frame filled with 10 dots.

A visual equation using dot grids. The first grid is 5 rows by 2 columns, filled with 10 dots. This is followed by a plus sign. The second grid is 5 rows by 2 columns, with 4 dots in the first column and 0 dots in the second column. This is followed by an equals sign. The final grid is 5 rows by 2 columns, filled with 14 dots.
